## PROFITABLE COMPREHENSIVE HEALTHCARE EDUCATION AND TRAINING

OAK Horizons' addresses the growing need in the healthcare industry for qualified, productive and versatile medical transcriptionists and coding specialists. Curriculum development, online training, and partnering with colleges, technical schools, proprietary schools and all other education facilities are key facets of OAK Horizons. Are you interested in offering quality curriculum in the healthcare field with real world training and equipping? Would you like a revenue generating curriculum that requires no classroom and can have an institution-contracted facilitator for online learning? OAK Horizons joins with you to provide your students with the education and tools that prepare them to become employable. With OAK Horizons you will increase your revenue stream and be ready to offer courses within 10 to 30 days of agreement.

AHDI, the national organization for medical transcription, approval has been achieved by schools using the OAK Horizons curriculum.

Let OAK Horizons assist you and your education community in offering courses that are recession resistant. Contact us today.

**Linda Lutz, ED.D.**

Catawba Valley Community College

*"Wow! OAK Horizons is the best. They have put together the most complete medical transcription package that I have ever seen! The learning material is easily accessed and so very user-friendly. Our enrollment is soaring!"*

**"So very user-friendly ...  
Our enrollment is soaring!"**

**Paul Jennings, Ph.D.**

Columbia State Community College

*"We have had a very positive experience. The programs are strong, easy to administer, and technically sound. Even the program startup and initial phases were painless. OAK Horizons has been very responsive to both student and college needs."*

**"The programs are strong  
easy to administer ..."**
